

# *The 1<sup>st</sup> International Meeting on Spin Device Technology Center*

## **Significance**

The 1st International Meeting on Spin Device Technology Center (SDTC-IM1) provides an opportunity to bridge new industrial applications and a magnetic technology. Along with the regular topics, this year we extend our interest to wide variety of high frequency materials/phenomena/applications, including left handed meta materials. Let's get together to find (“spin”) out a new direction of devices and technologies.

## **Topics**

RF magnetic devices and materials, Resonance phenomena, Left handed meta materials, Ultra-high density magnetic recoding, Electromagnetic wave shielding, and others

## **Date**

Saturday May 9th, 2009 (Next day to INTERMAG2009 Conference)

## **Venue**

Sacramento Convention Center  
1400 J Street, Sacramento, CA 95814

## **Registration**

Free

## **Guest member**

Jun Masuko, FUJITSU Co., Ltd., Japan  
Kenji Ikeda, TAIYO YUDEN Co., Ltd., Japan

## **Meeting chairman**

Makoto Sonehara  
Department of Electrical and Electronic Eng., Faculty of Eng., Shinshu University  
4-17-1 Wakasato, Nagano, Nagano 380-8553, Japan  
Phone +81-26-269-5198, Fax. +81-26-269-5215  
E-mail: makoto@shinshu-u.ac.jp, <http://sdtc.shinshu-u.ac.jp>

## **Committee**

Toshiro Sato, Shinshu University, Japan (General)  
Liu Xiaoxi, Shinshu University, Japan  
Hidetoshi Nakayama, Nagano National College of Technology, Japan
